## Unit Study for

### Co-op 2005

This unit study was created in 2005 for our homeschool co-op to study Florida together, including all the kids ages 5-14. We had a blast with reading aloud, reading at home, hands-on activities, field trips, researching, and giving reports in front of one another. We had a blast!

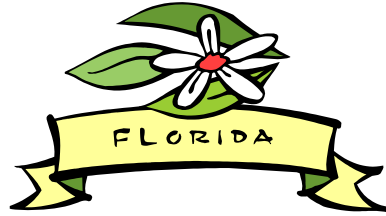

This is not a product.

We are just sharing our own notes to inspire you in your own lesson planning.

We hope this will be a blessing and inspire you to create your own classes and unit studies.

Warmly,  
Meredith Curtis & Laura Nolette
